Re: Temporary Rate Increases for Nursing and Assisted Living Facilities

This bulletin is being issued to notify Nursing and Assisted Living Facilities that participate in Nebraska's Medicaid program of a temporary increase in Per Diem rates. For dates of service between January 1, 2022 and June 30, 2022, Nebraska Medicaid is seeking federal approval from CMS to increase Per Diem rates by \$20 per day. The Department is utilizing the federal authority allowed in the Disaster Relief State Plan Amendment (SPA), as well as the additional federal financial participation available through the American Rescue Plan Act of 2021, to respond to the COVID-19 pandemic across the State.

Nebraska Medicaid will re-adjudicate all paid claims and will not require providers to re-submit claims. The department anticipates the temporary rate increases to be operationalized in March for new claims and previously paid claims subject to re-adjudication.
