Re: Behavioral health providers: Request for feedback on Applied Behavior Analysis services

This provider bulletin is being issued to let providers know that Nebraska Medicaid is currently reviewing its Applied Behavior Analysis (ABA) service definitions. We value your feedback.

The Medicaid Service Definitions (MSDs) describe Nebraska Medicaid's coverable services. Nebraska Medicaid would like to ask providers to review the current drafts of the Applied Behavior Analysis service definitions and provide feedback.

Drafts of Nebraska Medicaid's new ABA service definitions are available at the links below. If you would like to share your feedback with the program, please submit your feedback to DHHS.MedicaidMHSU@nebraska.gov. Please include your name and credentials in your message and specify to which definition(s) your comments relate. Nebraska Medicaid will accept comments through January 8, 2025.
