A Major Release of the N-FOCUS system is being implemented April 15, 2018. This document provides information explaining new functionality, enhancements and problem resolutions made effective with this release. This document is divided into four main sections:

**General Interest and Mainframe Topics:** All N-FOCUS users should read this section.

**Electronic Application:** N-FOCUS users responsible for case activity received through the Web based Electronic Application should read this section.

**Developmental Disabilities Programs:** N-FOCUS users who work directly with DD programs and those who work with the related Medicaid cases should read this section.

**Note:** This section will only appear when there are tips, enhancements or fixes specific to Development Disabilities Programs.

**Expert System:** All N-FOCUS users with responsibility for case entry for AABD, ADC Payment, SNAP, CC, FW, IL, MED, and Retro MED should read this section.

**Note:** When new functionality is added to N-FOCUS that crosses multiple topics (ie General Interest and Mainframe, Alerts, Correspondence, Expert System etc) the functionality will be described in one primary location. This location will usually be the General Interest and Mainframe section or the Expert System section. Alerts, Work Tasks and Correspondence that are part of the new functionality will be documented in both the primary location that describes the entire process and in the Alerts, Work Tasks and Correspondence sections.

Master Client Index MCI – New

Medicaid eligibility is in the process of being moved from NFOCUS to NTRAC. As part of this change, the Master Client Index (MCI) will maintain person data from both systems. The Master Client Index (MCI) data will be synchronized between NFOCUS and NTRAC to streamline the data management (search, create, update, merge and discontinue) processes between Medicaid and non-Medicaid Programs.

Having the people linked in both systems allows for the daily interface between N-FOCUS and NTRAC to pass eligibility information back and forth for an individual.

The MCI Implementation will be handled in two phases. The first phase is the integration of NFOCUS with MCI. The second phase of the MCI implementation will be the integration of NTRAC with the MCI.

Person Search Window

With this release, Search Discontinued Persons is now an available option from the Person Search window. Only discontinued ARPs will display.
Person Detail Window (Change)

The MCI icon will now be on the Person Detail window. This icon will provide a view of person data contained on the Master Client Index (MCI). The view is informational/read only.

Confirm Discontinue Duplicate Person (Change)

With this release, a new consolidation process will be available for merging duplicate ARPs. When discontinuing an ARP you will be able to update the existing ARP with the new data. You no longer have to unverify the SSN or terminate the SSN. If you attempt to use the Terminate SSN action you will receive this message.

Screen prints are on the following pages.
Answer yes and select the Discontinue Duplicate Person function on the drop down menu instead. If you really only need to terminate an SSN, because it doesn’t belong to the person and there isn’t a correct SSN to enter, answer No to continue.
VLP/SAVE Goes Paperless May 2018 for Medicaid Workers (Change)

The Verify Lawful Presence (VLP) system has been changed to go ‘paperless’ effective May, 2018. This means that the paper G845 and attachments will no longer be accepted by the Department of Homeland Security (DHS) beginning May, 2018. The VLP interface was meant to have a document upload function to go along with these changes. NFOCUS has opted not to implement this change as MLTC will be changing to NTRAC within a year. Because of this workers will use SAVE On-line for the 10% cases that are not resolved by VLP at Step 1 or Step 2.

The following instructions should be used for VLP/SAVE effective May 2018.

Continue to use the US Citizenship/Immigration window to verify citizenship and immigration status.

1. From the Detail Master Case window:
   a. Select Actions
   b. Select US Citizenship and Immigration

2. On the US Citizenship/Immigration window enter the data required from the client’s documentation.
3. Ninety % of these requests at Step 1 verification of citizen/immigration status should receive a response within seconds.
   a. These responses should indicate if the client’s Lawful Presence is verified, if a Qualified Non-Citizen, if the Five Year Bar is applicable, if the Five Year Bar is met or is a US Citizen.
   b. If at least one of those is present, VLP should close these requests.
4. The Step 1 response may include a request for better information or error correction information.
   a. Requests for additional information could be for:
      i. Correct Numeric Identifier
      ii. Alias information
      iii. Unexpired Foreign Passport Employment Authorization Data (EAD) History
      iv. Affidavit of Support
      v. Correct Grant Date
   b. If you can add the additional or corrected information do so and resubmit.
      i. This request should go to Step 2 and processing time should be 3 to 5 days.
      ii. The response should indicate the person’s current status or a request to submit documents.
   c. If you received a valid response proceed with eligibility determination. VLP should close the request.

5. If you are requested to attach a document or if you have not received a response after 5 days follow the additional steps to close your current request.
   a. Go to the Actions drop down on the US Citizenship/Immigration window.
   b. Select ‘Close Request’.
6. If you need to submit documents or if you have waited more than 5 days for a valid response you must **make a new request to the Online SAVE system**.
   a. Scanned documents can be uploaded using this system.

7. **YOU WILL NEED A SAVE ID and PASSWORD** to access the Online SAVE system.
   a. Contact NFOCUS Production Support to obtain the SAVE ID and Password.
   b. Use the internet address jump from the Production Support email with your SAVE ID and Password to get to the SAVE page.

8. If you already have a SAVE ID and Password to find the SAVE Database:
   a. Go to the DHHS Home Page select ‘RESOURCES’.
   b. On the Resources page select ‘NFOCUS SPECIFIC’ in the last column,
   c. On the NFOCUS Specific Useful Links page select ‘HOMELAND SECURITY SAVE DATABASE’.

9. **Sign in to SAVE**.
10. Select ‘**Initiate Case**’, add client information and Submit.
11. The SAVE System searches the DHS databases for records that match the applicant’s information. Within seconds, the system will provide an electronic response with the applicant’s current immigration status or a message prompting the user to “Institute Additional Verification” will appear on the window.

12. If the applicant’s immigration status is confirmed the verification process is complete.

13. If the status is not confirmed and the SAVE system requests additional information you will see the response below.

Barcoding Documents (Change)

EA Review/Recertification Application (Change)

Full page Bar Code sheets mailed with certain documents are changing to smaller bar codes found on the bottom of each sent document. The Economic Assistance Review/Recertification Application (EA-RA Form) is the first document to change to the placement of the barcode. Others are anticipated to follow with future NFOCUS releases.
There will no longer be a separate sheet of the barcode for any EA-RA with a creation date after May 1, 2018. The barcode will now appear at the bottom right corner, of the front-and-back side of each sheet (not including the client rights and responsibilities pages). The Economic Assistance Review/Recertification Application is the only correspondence piece to have the new barcode with this release. The barcode will only occur on recertification created in batch runs.

**Note:** With the April release, EA-RA forms created and printed starting in May, 2018 will have the new bar code. This applies to the new stored copies. The old stored copies, created prior to May, 2018, will continue to have the old bar code sheet.

Examples are shown on the following pages.
ECONOMIC ASSISTANCE REVIEW/RECERTIFICATION DUE

Eligibility for the following programs will end on AUGUST 31, 2018. A recertification/review is due before this date.

Child Care

This will be the only REVIEW/RECERTIFICATION Notification that will be sent for the program(s) noted above. In order for your benefits to continue without interruption you must submit an application by the 15th of AUGUST.

If your application is not received by this date your benefits may be interrupted or terminated. If your current benefits are terminated, you may apply at a later date and, if eligible, benefits may be prorated from the date of application.

Step 1: Application Submission

To insure timely processing of application please submit an application as soon as possible.

- Applications can be submitted online at www.ACCESSNebraska.ne.gov using our pre-filled online application. You can also complete and send the attached application (see additional pages) and mail to the address above, deliver the application to a local DHHS Office, fax to (402)742-2351, or email to DHHS.ANDICenterOmaha@Nebraska.gov. If the only household income is Social Security Income (SSI), you may apply for SNAP benefits through the Social Security Administration office.
- Providing as much information as possible on the application will assist us in completing your eligibility timely. Your application must contain at a minimum your name and address, and must be signed by you or your representative.
- For SNAP, if you are age 60 or older or you are determined disabled, you may qualify for a deduction from your household income for allowable non-reimbursable medical expenses. If you have questions about allowable expenses, contact us at the number on the top of this form. Include all of your medical expenses you pay out of your pocket on your SNAP application form. Be sure to include verification of your expenses.

Step 2: Interview may be required

- If you are required to complete an interview, an interview letter will be sent to you, or you will be contacted by phone. You are responsible for completing the interview if you are contacted by us. Failure to complete a scheduled interview may result in delay or denial of benefits.
- For SNAP, if all adult household members are over the age of 60, or determined disabled, and no one has earned income, your SNAP interview may be waived if you meet all other requirements and have provided required verification. We will conduct an interview with your household if you request one, or if there is earned income, if it appears your household may be denied, or if we need to address issues or questions about your application.

Step 3: Submit Proof to support your answers on the application

- Verification documents, such as proof of income, resources (assets), and expenses, may be required. Notification of requested documents will be given to you in writing.
- Submit documents online at www.ACCESSNebraska.ne.gov, fax or mail to the address above, or deliver to a DHHS local office.

SOCIAL SECURITY NUMBER

The DHHS asks for Social Security Numbers (SSNs) of all individuals for whom assistance/benefits is requested. Individuals who are not applying for assistance for themselves are not required to have or provide a SSN. If the individual is financially responsible for others in the assistance unit, the SSN will be used only to verify income and/or resources through computer matches as listed below or other sources so that eligibility can be determined for those requesting assistance. If the SSN is not provided, the assistance unit must assume responsibility for providing the information needed to determine eligibility for the individuals requesting assistance. Any SSNs provided will be used and disclosed in the same manner as SSNs of eligible participants.

For SNAP benefits, SSNs may be disclosed to other federal and state agencies for official examination and to law enforcement officials for the purpose of apprehending persons facing to avoid the law.Hs departmenth a SNAP benefit overpayment, the information on this application, including the SSNs, may be shared with federal and state agencies as well as private collection agencies for collection action. Those people who provide information regarding their immigration status and SSNs can receive SNAP benefits. If some family members do not wish to apply for SNAP benefits, they do not need to provide this information. If people in your household choose not to give an information about their immigration status or SSN, they must still provide you the information needed to determine the eligibility of the other persons in your household. You may withdraw your request for benefits for those persons or you may withdraw your entire application.

The SSN of each person in the assistance unit who is applying for assistance and provides his/her SSN will be computer matched with the following agencies to assist in the determination of eligibility: Income and Eligibility Verification System, Nebraska Department of Health and Human Services, Nebraska Department of Labor, Social Security Administration, Clerk of the District Court, Child Support Payment Center, Internal Revenue Service, and Veterans’ Administration. The information received from these agencies is used and verified when discrepancies are found by DHHS. This information may affect the household’s eligibility and level of benefits. SSNs are also used in computer matching and program reviews or audits to make sure each household gets the correct amount of benefits. This may result in criminal or civil action or administrative claims against persons fraudulently participating. This information will also be used to maintain compliance with program requirements and for program management.
Use of the IBML Large Scanner

When using the IBML Scanner, the new and old barcode style on the EA-RA Form will continue to be read by the machine. If the EA-RA form has been returned to the agency as “return to sender mail” regardless of barcode style, Document Imaging staff will still need to open all returned mail and prepare it as usual as a “returned mail” batch job. However, the process flow of the IBML image server will automatically index all EA-RA Forms to the client case as return mail. This means Document Imaging staff will no longer see the EA-RA pulled in to the Win Client worker queue. But, Document Imaging staff still have the ability to search for and edit the EA-RA forms if needed.

If the completed EA-RA form has been successfully received by the agency on behalf of the client, Document Imaging staff will still open and prepare it as usual as an “application” batch job along with any supporting documentation that was included, such as paystubs or bank statements, and continue to manually index and check-in to the client case using WinClient.

The IBML scanner will read the EA-RA new barcode style as one transaction with one document line (additional document lines will be present if supporting documentation has been included). In the Win Client screenshots below, the sample EA-RA is four double sided sheets (8 pages). It created 1 document line when scanned on the IBML.

However, if additional documents are submitted with the EA-RA Form, such as paystubs or bank statements, then those items will create additional document lines and will need to be categorized, edited, and checked-in manually by document imaging staff.

Once indexed, the EA-RA form with the new barcode will: automatically update the review/recertification tracking date, automatically tie the application to the master case, and automatically place SNAP program into pending status if it has not been closed for over 30 days.
Additional Scanning Update for IBML Return Mail Process

An additional update has been made to the return mail process when scanning on the IBML. For any piece of agency correspondence with the old barcode style (barcodes prior to April 15th release as seen below) that is prepped and scanned as return to sender mail batch- will also automatically index to the client case as return mail.

Win Client Desktop Scanning Process (Change)

When scanning the Economic Assistance Review/Recertification Application (EA-RA) with the new barcode on a desktop scanner using Win Client, the barcode will be read as one transaction with one document line per sheet (additional document lines will be present if supporting documentation has been included). In the Win Client screenshots below, the sample EA-RA is four double sided sheets (8 pages). It created four document lines when scanned. The EA-RA could contain more pages depending on the size of the household and therefore, could create more document lines in Win Client than shown in the screenshot below.

Document imaging staff will still need to manually merge all four document lines into one document line to have the EA-RA form appear in the NFOCUS list image window as one entry with all pages together. Also, if additional documents are submitted with the EA-RA Form, such as paystubs or bank statements, then those items will still need to be split, categorized, edited, and checked-in manually by document imaging staff.
