Wilson reported the program reports were combined and sent to the Board members prior to the meeting.

- a. Licensing – Tim Wilson reported on the Licensing Program and that the new Licensing Specialist, Christy Duryea, is learning and getting up to speed on the processes. Wilson also spoke about the LANCE System – it is still in testing stages and they are working on getting it programmed. EMS is scheduled for transition in August. More information will be sent out closer to the date. NSP fingerprints and documentation are waived until September 30, 2022.
- b. Carol Jorgensen, EMS Manager, reported on the EMS Program, initial and periodic inspections. Linda asked about telehealth, to which Wilson commented that it is in the planning stage on a trial basis with a Federal CDC Grant and Health Disparities.
- c. Wendy Snodgrass reported on the Education & Training Agency Compliance Program (see submitted report). Leadership training attendance is declining. Proposed dates are early December and February; there is not virtual option.
- d. Debbie Kuhn, EMSC and CISM Program Manager reported on the Emergency Medical Services for Children. She reminded everyone Wednesday is EMSC Day. Dr. Harrison wants to meet with the EMSC Committee. Kuhn applied additional grant funding. Smith reminded providers to please reach out for help through the CISM program if needed.
- e. Debbie Kuhn also reported on the Critical Incident Stress Management Program. CISM is swamped at 44 calls for intervention since January 1. Volunteers are being sought for the CISM 2-day training and application process. The question was posed if there are opportunities to do CISM virtually. Kuhn stated it is not ideal because of the practical piece of the training. The results of the survey did not make 83%.
- f. Wilson Reported that Sherri Wren was sick and had only one thing to add to the Trauma System Report that Sherri submitted. Title 185 was approved and goes into effect tomorrow.
- g. Becka Neumiller reported on the Stroke/STEMI Program. Wilson commented on one of the Stroke/STEMI projects. The AED Helmsley grant has a huge number of uses, giving out 150 more in 2022. Also this year, there will be ongoing training for AEDs.
