## 1.3 Install Certificates

Under the unzipped certificate folder, there is a folder called Certificates. You will need to install all four certificates to your local machine store. Double-click on GoDaddyClass2.cer and click on Install Certificates button. Follow the installation wizard to install the certificate to Local Computer of **Trusted Root Certificate** store:

Repeat the steps and install GoDaddyClass2.cer and GoDaddyRoot.cer to **Intermediate Certification Authorities** and install Netsmart.cer to **Trusted Publishers**.
