Documenting Nutrition Education Resources used

Remember to document when you provide a nutrition education resource

3 potential reasons this is happening:

- WIC participant or caretaker was not interested in receiving the material
- It was given but not recorded
- Or the nutrition ed material is not in the Nutrition Education panel in Journey
 - Plan: to get a list of nutrition ed materials, used by each agency, by the end of the year
 - In the interim, if the handout you provided is not in Journey, please list it in the Counseling/Education box in the Care plan
