NEBRASKA WIC PROGRAM

2027 Training Center Offerings and

Usual Meeting Times

9.15.26 - version

See the attached calendar on the following pages for training offerings we are planning for 2027:

- Please contact Jackie Johnson to see if these training dates you are interested in are still available for your new staff to attend.
- Training sessions close two weeks prior to the start of each training session if we have no trainees signed up and ready to attend that session. If we have no trainees for that session, we close the session and allow coaches to be reassigned to work at their own clinics. Do not wait until the last minute to request a training session as it may be full or closed.
- You will notice that five days are frequently listed on the training offerings calendar for each training, but the training (at this time) is usually completed in four days. *There are times, however, when a fifth day may be needed, so please allow for additional training time in their schedule in case it is needed.*
- For new staff needing to attend training, who have a longer distance to travel to the in-person training site, we try to build in a travel day following their Zoom training if possible.
- Jackie will correspond with you to finalize training days and times prior to the training.

The Training Center is currently using a hybrid training approach. Part of the training is being done remotely over Zoom and part of the training is done in-person. It is typically two days over Zoom and two days in-person but depending on the situation that schedule sometimes needs to be changed.

For clerks, the in-person training is currently being offered at the Lincoln, Gering, & Norfolk clinic sites since we have clerk coaches available at each of those sites. In the near future, we will be adding North Platte as an option.

For CPA's the in-person portion of the training is currently done in Lincoln. We lost our coach from the Grand Island location. In the future, we may look to expand our CPA coaching staff to offer more in-person training location options.
