Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	3
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

SITE REVIEW AND DOCUMENTATION SAMPLING	

Site Review	
PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: discussions related to testing critical functions are expected to be included in the relevant Standard-specific overall determination narratives.	
84. Did you have access to all areas of the facility?	☒ Yes ☐ No
Was the site review an active, inquiring process that included the following:	
85. Reviewing/examining all areas of the facility in accordance with the site review component of the audit instrument?	☒ Yes ☐ No
86. Testing and/or observing all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., intake process, risk screening process, PREA education)?	☐ Yes ☒ No
a. Explain why the site review did not include testing and/or observing all critical functions in the facility:	There were no intakes during my time on-site to observe. I did review documentation, interview administrators, intake staff and the youth regarding the intake process.
87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	☒ Yes ☐ No
88. Informal conversations with staff during the site review (encouraged, not required)?	☒ Yes ☐ No
89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	The facility was extremely cooperative and granted complete access to all areas of the facility. They allowed me to observe any function or to freely ask questions of any person on campus.
Documentation Sampling	
Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.	
90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	☒ Yes ☐ No
91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	I was given complete access to all documents. I reviewed all investigative files, a sampling of personnel files, all youth screening and education documents. In all instances I either asked for all of the documents or a large sample size. If a sample size was used for documentation, I solely chose the sample randomly. They were very quick to provide all documentation requested.

Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

• Exceeds Standard (Substantially exceeds requirement of standard) • Meets Standard (substantial compliance; complies in all material ways with the stand for the relevant review period) • Does Not Meet Standard (requires corrective actions)
Auditor Discussion Instructions
Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.311	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The YRTC-Hastings has a well-written PREA policy. The policy is titled Operational Memorandum 115.17.5 Prevention, Detection, Reporting, Staff Response, & Investigation of Abuse, Neglect, Sexual Harassment, Sexual Abuse/Assault. This policy will be referred throughout this report as the PREA policy. The PREA policy mandates zero-tolerance and outlines the facility's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The auditor observed that the procedures for following the standards were being met through directive and standard operating procedure. The OJS has a dedicated compliance team that includes the Compliance Manager who is the agency level PREA Coordinator and multiple Compliance Specialists that are filling the role as PREA Compliance Manager at the YRTC-Hastings facility. Samantha Mooney has been the Compliance Specialist, but she has been working part time at another DHHS facility and will be moving to the other facility full time. Ralph Healey and Fred Boon have been alternating the duty for YRTC-Hastings and will continue this process once Samantha Mooney has fully moved to the other facility. This has caused a bit of instability for this newly opened facility, but it appears they are beginning to find their balance. The compliance team reports outside of the facilities' chains of command and reports directly to the OJS Administrator. This team as well as facility staff work to ensure that compliance with every standard in both policy and procedure is maintained. The team has the authority to develop, implement and oversee the efforts and has the complete support of both the agency administrator and the facility administrator.

115.312	Contracting with other entities for the confinement of residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility does not contract for the confinement of its residents with other private agencies/entities.

115.313	Supervision and monitoring
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

YRTC-Hastings has a documented staffing plan that is updated annually. In addition, they provided documents to demonstrate to the auditor their thought process in compiling their staffing plan. A thorough assessment of camera coverage was completed in 2021 with cameras added to many key areas.

This facility attempts to maintain a higher staffing ratio than the 1:8 staff to resident ratio during waking hours and a 1:16 staff to resident ratio during sleeping hours mandated by PREA. The administration's ideal staffing level is 1:4 during waking hours and 1:8 during sleeping hours. Although the PREA staffing ratio is always maintained, the facility is only able to maintain their preferred staffing ratio through the use of mandatory overtime or utilizing staff outside of their normal duty position. There have been no documented incidents of falling below either the PREA standards ratio or the facility preferred ratio.

Each living unit is assigned a Living Unit Manager responsible for supervising their building. 11 Youth Security Specialists II (YSSII) and a Case Managers (CM) are direct reports of the Living Unit Manager. The Living Unit Manager will occasionally be responsible for the direct supervision and care of the youth. In addition to the Unit Manager, the Youth Security Specialists II and the Case Managers, there are 11 Youth Security Supervisors (YSS). The YSS is a supervisory position that focuses on safety and security for the campus. There are four (4) YSS assigned to 1st shift, three (3) YSS assigned to 2nd shift and three (3) YSS assigned to 3rd shift. There is a minimum of one (1) YSS during sleeping hours, not responsible for any particular unit, but rather responsible for the staff supervising those units. They patrol the campus to ensure safety and security of the facility and serve as the administration's designees in emergency situations. They, at times, may be responsible for direct supervision and care of the youth. Depending on the programming occurring there are also therapists and teachers on staff.

The PREA policy requires intermediate- and higher-level staff to conduct and document unannounced rounds. This duty is completed by both administrators/department heads. The auditor reviewed the log and noted unannounced rounds conducted by the Facility Administrator, the PREA Coordinator, the interim Program Manager and the and by the Youth Security Supervisors. A review of checks confirm that administrators and the Youth Security Supervisors complete these rounds. Rounds are documented in the unannounced rounds logbook and in the Shift Report section of the Morning Report. The auditor verified this by reviewing documentation and through interviews. Department heads stated during interviews that they have unannounced rounds assigned for a week at a time every eight to ten weeks. They go through every unit and interact with the youth during their walk-through.

In reviewing investigative files and interviewing youth, the auditor concluded that although there are adequate staff on duty for appropriate supervision, the activities of the youth reported during the incidents indicate that the staff on shift were not properly or directly supervising the youth. Proper supervision requires that not only are the staff present, but they are situationally aware and attuned to what each youth under their care is doing. If youth behavior is inappropriate, they need to immediately halt the behavior and if the behavior continues ensure that consequences are issued. Some of the incidents should never have occurred had the youth been actively supervised. Using camera coverage to verify an incident after-the-fact is not a beneficial strategy. Prevention should be the first strategy used. In addition, all staff should be aware that they are never to be in a one-on-one situation with a youth off camera. The average daily population has been 12. At the time of the on-site portion of the audit there were 11 with the youth split between Unit A with six (6) youth and Unit B five (5) youth. These are very manageable numbers to maintain constant supervision.

CORRECTIVE ACTION: To meet this standard the auditor required a period of monitoring in which the direct care staff are better coached in the proper techniques of youth supervision and more actively monitored by administrators. The auditor participated in phone conferences with the facility administrator every two weeks during the corrective action period. During these meetings we discussed their new strategies for better supervision. We discussed staff coaching, unannounced rounds and incident reports, if any, from the previous two weeks. During the monitoring period the administrators enacted several key supervision tactics to help alleviate incidents within their facility. They put in place a new compliance manager, placed youth who were having behavioral concerns on boundary plans, separated youth who were having boundary issues into different sleeping rooms, and assigned a one-to-one staff ratio for youth who continued with poor behavior. They monitored staff interactions closely and required that Unit Managers and Compliance staff review camera coverage frequently, review the logbook and actively coach staff when poor supervision was witnessed. Toward the end of the corrective action period the administrator stated staff were doing a better job at redirecting behavior and being more diligent in directly supervising youth and holding them accountable. Staff were understanding that they cannot let things go because these can turn into larger problems if left unaddressed. There were no incidents reported in December to mid-January (the last monitoring call was on January 14, 2022).

115.315	Limits to cross-gender viewing and searches
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility does not conduct cross-gender pat-down searches except in exigent circumstances. The agency trains security staff on how to conduct cross-gender pat-down searches, and searches of transgender and intersex residents. Staff at YRTC-Hastings are instructed to conduct all searches with the back of their hands and in a manner that is respectful of all residents. The facility does not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, it is determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. The YRTC-Hastings has policies and procedures that enable residents to shower, perform bodily functions and change clothing without nonmedical staff of the opposite gender viewing them in a state of undress except in exigent circumstances or when such viewing is incidental to routine cell checks. If during a routine cell check a youth is seen in a state of undress, an entry is made in the exigent circumstance log. Each resident hall has a private restroom that includes a shower, toilet, and sink. The restrooms are single-occupant restrooms for privacy. Male staff do not supervise the resident hall during shower times when a female youth might be in a state of undress. Male staff announce their presence prior to entering the resident hall. The auditor noted the announcement was made during the tour of the facility. The youth and staff indicated during interviews that these announcements are made consistently.

115.316	Residents with disabilities and residents who are limited English proficient
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The YRTC-Hastings uses both a contracted telephonic interpretation service, the Language Line, and a list of state contracted interpreters for youth who may not speak English or speak through Sign Language. The facility does not use residents to interpret for other residents. All staff are instructed in the procedures for assisting youth who may need additional assistance. Staff sign a verification form that they understand these procedures. Staff acknowledged these procedures during the interviews. Staff work with youth who have either visual impairments or reading and comprehension issues by verbally reviewing the material. The agency takes appropriate steps to ensure residents with disabilities (for example, residents who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The policy states the facility does not rely on resident interpreters, resident readers, or other types of resident assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident's safety.

115.317	Hiring and promotion decisions
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility's personnel files are maintained on-line. The Human Resources staff brought up employee files for the auditor to review electronically. The facility has performed background checks at the time of employment of new hires. The auditor reviewed personnel files to confirm the background checks were completed as per the standard. YRTC-Hastings performs Child Abuse and Neglect Registry checks at the time of employment. They have a form asking the questions regarding sexual misconduct that is completed upon hiring and during the annual review process. The continuing duty to report is outlined in policy and all staff are required to sign that they have read and understood the policy. The facility conducts the required checks with former institutional employees regarding sexual misconduct while employed.

115.318	Upgrades to facilities and technologies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion The facility opened in April 2021 following the completion of new construction on several of the buildings. The facility is well designed, and facility staff will continue to review for blind spots or changes to the facility through their incident review and annual review process. There are cameras in all key areas and badge readers to enter the resident hallway for access to bedrooms and showers. Video retention is up to 90 days which enhances investigation efforts. Mirrors are located in areas where visibility may be impaired. Administration staff are continuously modifying and upgrading when the need dictates or when discovered during physical inspections of the campus.

115.321	Evidence protocol and forensic medical examinations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	As soon as sexual abuse is reported the protocol is to call the Child Protective Services hotline and/or the Nebraska State Police. Both of these agencies use the Family Advocacy Network (FAN) in Hastings to advocate and assist youth who have been sexually assaulted. The staff take direction from the State Police and the FAN on when and where to transport sexual assault victims for a forensic examination. Typically, they will be transported to FAN or to Mary Lanning Healthcare. The facility has a Memorandum of Understanding (MOU) with the FAN who provide counseling to survivors of sexual abuse and provide accompaniments to the hospital, during interviews and throughout the investigative and criminal proceedings process.

115.322	Policies to ensure referrals of allegations for investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The policy and procedures are in place to always notify the facility investigators (which are members of the compliance team) for every incident of sexual abuse or sexual harassment. PREA policy 115.17.5 then specifically states that the YRTC-Hastings will ensure all allegations of sexual abuse or sexual harassment are referred for investigation to the Nebraska State Police that involves potentially criminal behavior. Allegations that are not criminal are investigated by trained investigators at the facility. The PREA policy (which includes Section V. Investigation – Criminal & Administrative) is posted on their website at https://dhhs.ne.gov/Pages/YRTC-Reports.aspx. In reviewing investigative files, the auditor reviewed one case that was administratively investigated. However, the case involved potentially criminal behavior and should have been turned over to the Nebraska State Patrol for investigation as per the YRTC-Hastings' Investigation policy. CORRECTIVE ACTION: The auditor required that a case with potentially criminal behavior be turned over to the Nebraska State Patrol for investigation as per the YRTC-Hastings Investigation policy. On November 16, 2021, the PREA Coordinator provided the auditor documentation verifying that the YRTC-Hastings Compliance Specialist reported the incident to the Nebraska State Patrol on October 27, 2021, for investigation.

115.331	Employee training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The YRTC-Hastings provides PREA training to all staff both at the time of hire and annually thereafter. The training is based on training resources that the compliance team has compiled from the PREA Resource Center website. The auditor reviewed the training material to include PowerPoint presentations, reviewed the training forms with staff signatures and interviewed staff about the training they received.

115.332	Volunteer and contractor training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	YRTC-Hastings utilizes Youth for Christ mentors from the University of Nebraska Kearney and the University of Nebraska Lincoln. All volunteers receive PREA training and background checks. Their interaction with youth is always staff monitored. Due to Covid-19 use of volunteers has been limited. The auditor reviewed their volunteer and contractor training materials. Compliance staff provide the training and the contractors/volunteers are required to sign training acknowledgment forms.

115.333	Resident education
	Auditor Overall Determination: Meets Standard Auditor Discussion The facility provides information to residents upon intake. This training covers the YRTC-Hastings's zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment. The facility verbally goes over written orientation information with the youth, provides a PREA pamphlet and then has the youth sign the form when complete. Youth are required to complete the video training and the PREA comic book End the Silence from the Washington College of Law within 10 days. However, of the eleven (11) youth housed at YRTC-Hastings at the time of the audit there was only documentation of three (3) youth receiving the more comprehensive information within the required ten days. The documentation showed that the comprehensive training was overdue by five to seven days for four (4) youth; the documentation was blank regarding the comprehensive training for two (2) youth and there was no documentation provided for two (2) youth. Their training includes their right to be free from sexual abuse and sexual harassment, to be free from retaliation for reporting such incidents, and regarding the YRTC-Hastings' policies and procedures for responding to such incidents. Youth sign acknowledgment forms that they have received the training. This information is continuously and readily available through posters throughout the facility as well as in the handbook. The Family Advocacy Network (FAN) number is on the bulletin board near the phone. The auditor reviewed documentation for both the initial training done at intake and comprehensive training. CORRECTIVE ACTION: The auditor required documented evidence of training for all youth admitted into the program during the corrective action period. On January 19, 2022, the facility provided youth training records for all youth admitted during the corrective action period. The training documentation appropriately reflected both the initial training on the zero-tolerance policy and how to report that is given during the intake process and more comprehensive training provided within 10 days of arrival.

115.334	Specialized training: Investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion All members of the compliance team are trained investigators and have received specialized training as a facility investigator by a staff member who has attended the PREA Resource Center's Train the Trainer course in investigations. In addition, most of the compliance team have also completed the Reid Technique of Investigative Interviewing and Advanced Interrogation. The auditor interviewed two of the investigators and found them to be well trained. They stated specialized training included techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. The YRTC-Hastings provided the auditor with documentation of the investigator training completed.

115.335	Specialized training: Medical and mental health care
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Through interviews with medical and mental health staff it is apparent they are knowledgeable in how to detect and assess signs of sexual abuse and sexual harassment; how to preserve physical evidence of sexual abuse; how to respond effectively and professionally to victims of sexual abuse and sexual harassment; and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment. The auditor reviewed the training curriculum and training signature sheets.

115.341	Obtaining information from residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor reviewed policy, the screening tool that the YRTC-Hastings uses and interviewed screening staff. The facility maintains and uses information about each resident's personal history and behavior to assist in reducing the risk of sexual abuse by or upon a resident. The screening is objective and assigns points or use a specific number of questions to assign an outcome to provide an outcome of low, moderate, or high risk in either the potential for victimization and/or perpetration. Only limited staff have access to the risk screening form. If a youth, through the screening process, is determined to be susceptible to victimization or perpetration of sexual abuse, this is shared with staff only to the extent necessary to provide for the well-being of youth.

115.342	Placement of residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion Youth are housed in individual rooms at the YRTC-Hastings. Interviews indicate that a transgender or intersex resident's own view with respect to his or her own safety would be given serious consideration on how they are placed. The facility does not place lesbian, gay, bisexual, transgender, or intersex residents in particular housing, bed or other assignments solely on the basis of such identification or status, nor does the facility consider lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of likelihood of being sexually abusive. YRTC-Hastings makes placement decisions based on all information obtained to make housing, bed, program, and education assignments for residents with the goal of keeping all residents safe and free from sexual abuse. Youth who identify as transgender or are intersex shower separately as do all youth at YRTC-Hastings. The facility indicates through interviews that they will consider on a case-by-case basis assignment to a living unit that will ensure the resident's health and safety, and whether the placement would present management or security problems. Facility procedure is to manage a resident's housing placement rather than using isolation as a means for protecting the resident's safety. If residents are placed on safekeeping/isolation, it is used as a last resort when least restrictive measures cannot keep a resident safe.

115.351	Resident reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	YRTC-Hastings provides multiple internal and external ways for residents to privately report sexual abuse and sexual harassment, or retaliation. They can report to staff including medical and mental health staff or write a grievance. They also can speak with the Administrator or any member of the compliance team by making a request at any time. They have regular contact with their family, probation, attorney or Children and Family Services case worker. They can call externally to the Child Abuse & Neglect Hotline provided by the Nebraska Department of Health and Human Services Children and Family Services. This number is available on posters posted in the dayroom near the telephone and in the handbook. The auditor placed a call within the housing unit to the abuse hotline and spoke with a staff worker who walked through the process if a youth calls to report abuse. The call was free and did not require a PIN. Youth are always able to request staff to place a call to the hotline on their behalf. The staff accepts reports made verbally, in writing, anonymously, and from third parties and promptly documents any verbal reports. The facility provides residents with access to tools necessary to make a written report.

115.352	Exhaustion of administrative remedies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Residents may submit a grievance alleging sexual abuse or harassment without submitting it to a staff member that is subject of the allegation. The youth does not have to complete any other prior steps in order to submit a grievance for an allegation of sexual abuse. There is no time limit on when a youth can submit a grievance regarding an allegation of sexual abuse. Staff and youth interviews confirmed their knowledge of how the grievance process can be used to report sexual abuse and sexual harassment, but it does not have to be reported by that method. Grievance boxes are located in the housing areas. These boxes are check by compliance daily.

115.353	Resident access to outside confidential support services and legal representation
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The YRTC-Hastings has an MOU with the Family Advocacy Network (FAN) for crisis support services. The FAN contact information is posted on their bulletin board near the phones. The YRTC-Hastings provides youth with reasonable and confidential access to their attorneys and parents. In addition, youth reported that they had contact with their families regularly.

115.354	Third-party reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The agency has posted publicly on their website at http://dhhs.ne.gov/Pages/YRTC-Reports.aspx the YRTC-Hastings Parent Handbook which includes a paragraph about how to report to the Child Abuse & Neglect Hotline. Also, the opening webpage for Youth Rehabilitation has in bold, large print and outlined in red the Child Abuse and Neglect Hotline Number.

115.361	Staff and agency reporting duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The YRTC-Hastings requires all staff to report immediately any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment that occurred in a facility, retaliation against residents or staff who reported such an incident; and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. Apart from reporting to designated supervisors or officials and the abuse and neglect hotline, staff are prohibited from revealing any information related to a sexual abuse report to anyone other than to the extent necessary to make treatment, investigation, and other security and management decisions. Medical staff are required to report sexual abuse to designated supervisors and officials as well as to the Department of Health and Human Services Children and Family Services Child Abuse and Neglect hotline. Such practitioners are required to inform the residents at the initiation of services of their duty to report and the limitation of confidentiality. There is also a sign posted in the medical offices that informs youth that if they tell medical staff they were hurt by anyone or themselves they must report it. The staff reports all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports, to designated investigators. Upon receiving any allegation of sexual abuse, the Administrator or designee promptly reports the allegation to the Department of Health and Human Services Children and Family Services Child Abuse and Neglect hotline and to parents or the legal guardian.

115.362	Agency protection duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Through a review of policy, interviews with the Administrator and random staff, the facility requires all staff to take immediate action to protect the resident from imminent sexual abuse. There have been no instances that a resident was subject to risk of imminent sexual abuse.

115.363	Reporting to other confinement facilities
	Auditor Overall Determination: Meets Standard
	Auditor Discussion Through interviews with the OJS Administrator, the facility administrator, and the PREA Coordinator there are procedures in place to appropriately act upon receiving an allegation of sexual abuse of a resident while at another facility with such action initiated no later than 72 hours and actions documented. They stated that this notification must be from Administrator to Administrator. There have been no instances of these allegations received regarding abuse at other facilities.

115.364	Staff first responder duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	YRTC-Hastings staff were well versed in first responder duties and were aware of all elements of this standard (separate alleged victim/abuser, preservation, and protection of crime scene, to include collection of physical evidence as soon as possible by law enforcement or the SANE nurse, including the request of the victim not to take any actions which could destroy any physical evidence). A review of policy as well as interviews with random staff confirmed knowledge of these procedures.

115.365	Coordinated response
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility has a coordinated response plan in their PREA policy. The policy outlines the coordinated actions taken in response to an incident of sexual abuse among staff first responders, medical and mental health practitioners, investigators, facility leadership and the external responders. Staff always call or assist the youth in calling the Abuse and Neglect Hotline. The Children and Families staff's response are coordinated between the Nebraska State Police and the Family Advocacy Network. Staff interviews and interviews with the Administrator and the PREA Coordinator indicate staff are aware of their responsibilities to coordinate responses within the facility.

115.366	Preservation of ability to protect residents from contact with abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The staff are represented by collective bargaining agreements. However, after a review of the agreement and interviewing administrators there are no barriers preventing the Administrator from removing alleged staff, volunteer, or contractor sexual abusers from contact with residents pending the outcome of the investigation and a determination of discipline.

115.367	Agency protection against retaliation
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility has a PREA policy that includes measures to protect against retaliation. Case Managers are assigned to monitor for retaliation for youth and Unit Managers are assigned to monitor for retaliation against staff. Should any person who cooperates with a sexual misconduct investigation express fear of retaliation appropriate protective measures will be taken. Retaliation monitoring will be discontinued should the allegation be unfounded. Measures include housing changes, removing contact of alleged staff/resident abusers and emotional support services for those who fear retaliation. The monitoring is documented for up to 90-days or longer if needed on the Protection Against Retaliation form and an electronic copy is kept which includes the date, time and monitoring comments.

115.368	Post-allegation protective custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The YRTC-Hastings has no special management unit. If a youth needs to be segregated from others they are put on room confinement. The facility typically does not use room confinement of residents as a means to keep them safe from sexual misconduct. Youth have individual sleeping rooms. When not in their rooms, youth are to be always in the direct supervision of staff. Adequate precautions can be taken such as keeping the youth in more close proximity of staff or separate the youth by giving them different housing assignments to keep them safe. It would be a very rare circumstance to use room confinement – possibly while they were keeping two youth separate while they investigated the facts.

115.371	Criminal and administrative agency investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor reviewed agency investigative files. The facility had multiple incidents of youth violating the no-touch policy and making one-time comments of a sexual nature. There was one investigation of staff misconduct that was investigated administratively although it involved potentially criminal behavior and should have been turned over to the Nebraska State Patrol for investigation as per the YRTC-Hastings' Investigation policy. Refer to the standard 115.322 regarding corrective action required for this incident. All other incidents were properly investigated as outlined by agency policy and PREA standards and appropriate consequences were issued following the investigations. Administrative investigations include efforts to determine whether staff actions/failures contributed to the abuse documented through written reports that include physical/testimonial evidence. All written reports will be retained for at least seven (7) years from resident(s) discharge or until the age of majority is reached whichever is longer.

115.372	Evidentiary standard for administrative investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The YRTC-Hastings uses no standard higher than a preponderance of evidence in making a determination of alleged sexual abuse/harassment. The auditor determined this through a review of policy, interviews and a review of investigatory files.

115.373	Reporting to residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility documented their outcome of the investigation reported to the resident on their investigatory documents. Their investigation forms have a form that documents their notification to residents as to whether the allegation was substantiated, unsubstantiated or unfounded and also requires that the resident sign the form.

115.376	Disciplinary sanctions for staff
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor interviewed staff and investigators and reviewed PREA policy. Staff are subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies. Termination is the presumptive disciplinary sanction for staff who have engaged in sexual abuse. Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement, unless the activity was clearly not criminal. There have been two cases of staff sexual misconduct reported for this program, one was while the program was temporarily housed on another campus and another at this campus. Both cases are still under investigation.

115.377	Corrective action for contractors and volunteers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Any contractor or volunteer who violate sexual abuse, sexual harassment and retaliation policies are subject to disciplinary sanctions including termination of service. There have been no contractors or volunteers who have been accused of sexual misconduct.

115.378	Interventions and disciplinary sanctions for residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	For incidents of youth-on-youth sexual abuse, sexual harassment or retaliation, administrative sanctions will be handed out following the formal disciplinary processes and applied commensurate with the level of infraction. A youth's access to general programming or education is not conditional on receiving interventions designed to address/correct underlying reasons or motivations for abuse.

115.381	Medical and mental health screenings; history of sexual abuse
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor reviewed policy, screening documents and conducted interviews to verify compliance with this policy. If the screening tool indicates there was previous sexual abuse victimization or perpetration, there are documentation areas on the youth screening form to document this. If the youth does want to meet with a medical provider or mental health professional the follow-up care will be documented within the medical record or therapists' records. Residents are notified that if they report prior sexual victimization even incidents that did not occur in an institutional setting and they are under 18 years of age, they must notify Department of Health and Human Services Children and Family Services Child Abuse & Neglect Hotline. The medical and mental health practitioners obtain informed consent from residents before reporting information about prior sexual victimization that did not occur in an institutional setting if the resident is 18.

115.382	Access to emergency medical and mental health services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility provides access to emergency medical and mental health services. In the event services after hours are not available by the facility medical health staff, residents would be taken to the Mary Lanning Healthcare Center. The facility health services staff work in coordination with the Mary Lanning Healthcare Center to ensure that resident victims of sexual abuse are offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. Nebraska has a state law (Neb. Rev. Stat. §81-1429.03) which requires that the full out-of-pocket cost or expense that may be charged to a sexual assault victim in connection with a forensic medical examination are to be paid from the Sexual Assault Payment Program Cash Fund. This program is administered by the Nebraska Department of Justice. These services have not been used since the facility opened.

115.383	Ongoing medical and mental health care for sexual abuse victims and abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility requires that medical and mental health evaluations and treatment be offered at no cost to sexual abuse victims and abusers. If the youth is taken to the hospital, they would follow any recommendations made by hospital staff or provide any services needed that were not provided by the hospital. The nurse and the Director of Clinical programming stated that in many instances mental health services are provided on-site by their mental health professionals. If a youth is taken to the hospital, tests for sexually transmitted infections and pregnancy tests will be offered there by the SANE, but they also have standing orders for those if for some reason they were not done at the hospital.

115.386	Sexual abuse incident reviews
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility conducts incident reviews as outlined within their PREA policy. They conduct formal sexual abuse incident reviews following each sexual abuse investigation specifically answering the questions posed within the standard. This review includes upper-level staff, supervisors, investigators, and medical staff. 	Auditor Discussion The state previously had a girls program in Geneva, Nebraska and was known as YRTC-Geneva and was audited in 2015 and again in 2018. That facility closed in August 2019. The YRTC-Hastings facility opened in April 2021 with a new facility and new staff. This is considered this facility's first audit. This agency operates three juvenile facilities. All facilities are audited every three years. Audits are posted on the agency website at https://dhhs.ne.gov/Pages/YRTC-Reports.aspx. The auditor had complete access to the facility and was able to observe all areas of the facility. The auditor was provided numerous documents, viewed camera systems, and interviewed residents and staff from all shifts. The YRTC-Hastings staff provided private accommodations to conduct interviews, made adjustments to routines and staff schedules and allowed after-hours access to the auditor. The staff were very professional throughout the audit. The auditor notices were posted throughout the facility and the facility provided a dated photograph to verify that the notice was posted six weeks in advance of the audit. The auditor did not receive any confidential communication from residents at this facility.
