SAMPLE | FOR CNM 407 COMMITTEE REVIEW

Equipment, Medications & Emergency Supplies for Planned Home Birth

Maternal assessment & stabilization • Neonatal resuscitation • Birth & repair • Medications • Transfer planning

Date:		**Checked by:**	
Birth/client:		**Bag/seal #:**	

Illustrative practice inventory, not a universal minimum or mandated formulary. Record medication lot, expiration, and required storage temperatures.

A. Maternal Assessment & Emergency Equipment

✓ Item	Qty	Exp./Lot
☐ Waterproof fetal Doppler		
☐ Adult BP cuff (assorted sizes)		
☐ Adult stethoscope		
☐ Adult pulse oximeter		
☐ Electronic thermometer		
☐ Portable suction with canister, tubing, catheters		
☐ Oxygen cylinder(s) and regulator		
☐ Adult oxygen masks and tubing		
☐ Adult bag-valve-mask		
☐ Oral airways		
☐ AED (if carried)		
☐ IV catheters and start kits		
☐ IV tubing		
☐ Saline locks and flushes		
☐ Venipuncture supplies		
☐ Urinary catheter kit (straight and Foley)		
☐ Blood-loss measurement/collection supplies		

B. Neonatal Resuscitation (NRP)

✓ Item	Qty	Exp./Lot
☐ Neonatal resuscitation bag		
☐ Neonatal masks, sizes 0 and 1		
☐ T-piece resuscitator with PEEP and tubing		
☐ Self-inflating neonatal bag (backup)		
☐ Bulb suction		
☐ Suction catheter and tubing		
☐ Neonatal pulse-oximeter sensor		
☐ Neonatal stethoscope		
☐ Neonatal thermometer		
☐ Warm towels, hats, and wrap		
☐ Supraglottic airway (i-gel/LMA size 1)		
☐ Advanced airway kit (laryngoscope/ETT), if trained		
☐ CO_2 detector		
☐ Airway securing supplies		
☐ UVC/access kit, if trained		
☐ Syringes and needles		
☐ Medication labels		
☐ Timer		

C. Transfer Readiness

✓ Item	Qty	Exp./Lot
☐ EMS and receiving-hospital contact information		
☐ Home address/directions and access plan		
☐ Maternal and newborn records for transfer		
☐ Transfer SBAR / clinical handoff form		
☐ Medications given and equipment used list		
☐ Charged phone and backup communication		
☐ Extra O_2 tubing and masks		
☐ Extra warming supplies		
☐ Cold-chain monitoring for refrigerated items		

D. Birth & Laceration Repair

✓ Item	Qty	Exp./Lot
☐ Sterile delivery/repair tray (hemostats, needle holder, forceps, Mayo/Iris scissors)		
☐ Absorbable sutures, appropriate sizes		
☐ Syringes/needles for local anesthetic		
☐ Sterile drapes		
☐ Gauze and dressings		
☐ Antiseptic solution		
☐ Sterile lubricant		
☐ Cord clamps/ties		
☐ Placenta container		
☐ Gloves/PPE		
☐ Hand sanitizer		
☐ Sharps container		
☐ Portable light/headlamp		
☐ Spare batteries		

E. Medications (Maternal & Newborn)

✓ Item	Qty	Exp./Lot
Hemorrhage / uterotonics		
☐ Oxytocin 10 units/mL, IM/IV		
☐ Methylergonovine 0.2 mg/mL IM		
☐ Carboprost 250 mcg/mL IM		
☐ Misoprostol 200 mcg tablets		
☐ Tranexamic acid (TXA) 1 g/10 mL IV		
☐ Lactated Ringer's		
☐ Normal saline		
Hypertension / seizure		
☐ Labetalol IV		
☐ Nifedipine IR tablets		
☐ Hydralazine injection (per protocol)		
☐ Magnesium sulfate (per route/protocol)		
☐ Calcium gluconate 10% (magnesium reversal)		
Allergy / anaphylaxis / glucose		
☐ Epinephrine 1 mg/mL (adult anaphylaxis)		
☐ Diphenhydramine		
☐ Glucose/dextrose (as indicated)		
Infection / Rh / comfort		
☐ GBS prophylaxis antibiotics (when indicated)		
☐ Penicillin-allergy alternative per guidance		
☐ Sterile water / appropriate diluents		
☐ Rh(D) immune globulin (when indicated)		
☐ Lidocaine 1% without epinephrine (repair)		
☐ Ibuprofen (postpartum)		
☐ Acetaminophen (postpartum)		
Newborn		
☐ Vitamin K (phytonadione) 1 mg/0.5 mL IM		
☐ Erythromycin 0.5% ophthalmic ointment		
☐ Neonatal epinephrine 0.1 mg/mL (per NRP)		
☐ 0.9% normal saline (per NRP)		
☐ Hepatitis B vaccine		

PRE-BIRTH CHECK: Confirm function, stock, sterility, expiration and temperature-sensitive storage before every planned birth.
