- LB 16 Occupational Reform and Preliminary Conviction Review
https://nebraskalegislature.gov/bills/view_bill.php?DocumentID=49705

This was introduced by Senator Briese. LB16 Require occupational boards to issue certain credentials based on credentials or work experience in another jurisdiction and make a determination regarding an applicant with a criminal conviction, provide for jurisprudential examinations and appeals from denial of a license, and change requirements for membership of the State Electrical Board. Hearing was February 9, 2023.

- 1) Pathway based on experience in another State.
- 2) Add to preliminary conviction set out paramotors for type and time, also offenses that are Auto disqualifying needs to be in states.

- LB 337 Confidentiality
https://nebraskalegislature.gov/bills/view_bill.php?DocumentID=49732

Currently, those practicing under the Mental Health Practice Act cannot share information without the consent of the client or when they have a duty to warn. There are times when clients are unable to consent to information sharing (intoxication, psychiatric crisis). LB 337 will align Nebraska state law to align with HIPAA. LB 337 would significantly decrease the barriers that mental health practitioners experience when trying to coordinate treatment activities or make referrals for care when client consent cannot be obtained. These challenges often occur by those serving individuals who are in the behavioral health and criminal justice systems. When consent cannot be obtained, LB 337 would allow mental health practitioners to share the minimum amount necessary of protected health information to improve access and continuity of care and reduce duplication of efforts.
