4. UPDATES

a. Legislation

Baumann reported that the legislative session was ending. There were no bills introduced during this session that directly affected Optometry. She mentioned that LB 961, relating to collateral sanctions, was still in committee. She encouraged the board to notify her in the future if there are bills introduced that they would like staff to track and report on to the board. Myers mentioned that LB 987, a bill related to Vision Benefit Managers, had been sponsored by the Nebraska Optometric Association (NOA); it did not move out of committee during this year's session.

b. Regulations

Baumann said that due to the passage of LB 29 during the 2025 session, all regulations are required to be reviewed by the Department every five years. Licensure staff will notify the board via meeting agenda when it is time for the review. Walvoord noted that, during each review of the regulations for a given profession, if the board determines that certain sections need to be updated, the entire document is open for review and can be updated. Rohr noted that the review process does not mean that the regulations have to be updated, but if the regulations are opened upon review, the normal process will be followed, including scheduling hearings and soliciting public comments. Walvoord noted that if board members notice anything that needs to be updated during the next review, it would be helpful to notify Licensure staff so that they can keep track of the updates which will be needed during the next review.

c. Association Updates

The board members will review their schedules to determine which board member will be able to attend. Once that is determined, an email ballot can be sent to board members to approve funding for attendance at the meeting. ARBO also offers travel scholarships for meeting costs. Baumann reminded board members that documentation of expenses needs to be submitted to the Department prior to the trip in order to be approved.
