The Minimum Allotment for one-person or two-person households is $\$ 23$ effective 10/1/2023.

## Resource limits

Households that include an elderly or disabled member \$4,250
All other households
\$2,750
Expanded Resource Program (ERP) households \$25,000

## Reporting Requirements

ERP households must report if their gross income goes over 130\% of the FPL. If their gross income is above $130 \%$ of the FPL, they are not required to report income increases until they reapply for SNAP. However, if at any time an ERP household's gross income decreases to below 130\% of the FPL they are required to report if their income increases to over $130 \%$ of the FPL, but only for the first time during a certification period.

This does not change how non-ERP households, whose gross income limit remains 130\%, must report changes.
